Blending Words

Objective: To increase skill in blending letter sounds to make simple words for students who
• Have mastered letter sound correspondence with the letters in the words you
  will be blending
• Have not yet mastered this skill

Materials: List of words printed in a size students can read

Sequence:
1. Tutor sits next to the student sharing a table.
2. Explain: Tutor says to the student “Today you’re going to practice blending sounds to
make words to become an even better reader. When I touch under a letter you’ll say the
sound for that letter. When you blend, don’t stop between sounds. When I slide my
finger under the whole word, you’ll say the word.” This explanation may be shortened
for students who have had experience with this intervention, but some explanation &
rationale must be given at the start of every session.
3. Model: Tutor says to the student “I’ll model for you how to blend two words. My turn.”
Tutor models for the student, using the signaling procedure described above with only the
tutor responding. An adult model is to be provided at the start of every session, even if
the student is familiar with the expectations of the task.
4. Practice: Tutor says to the student “Your turn.” tutor practices with student, starting at
the top of the page. Tutor maintains brisk pace, with little pause between words. Repeat
pages until there are no errors.
5. Correction: Any time a student responds incorrectly, the tutor immediately says “My
turn,” demonstrates the correct response, then says “Your turn” has the student respond to
the same word, backs up 2 words and continues forward so that the student must identify
the previously incorrect word again. [i.e., “My turn. /m/ /o/ /m/ mom. Your turn.” (signal
for student response)].

What If I Don’t See Progress?

1. Reduce the number of words on the list you are practicing and repeat the list more times
2. Work on only two phoneme words or words with only continuous letter sounds until
   immediate mastery is noted on these
3. Provide a model for more words
4. Be certain that error correction procedures are being delivered correctly

The intervention protocols and integrity observations were developed by the St. Croix River Education District, Rush City, MN,
Permission for use is granted for Reading Corps tutors and coaches within the 2013-14 Reading Corps program.

**Total** (maximum of 8 possible):
SAMPLE STUDENT MATERIALS FOR WORD BLENDING:

mit  cat  Tam  him
lap  sit  Sam  jam
nip  pin  am  an
pit  man  tin  hat

Pages used for Word Blending appear on edSpring, and are designed to be used in the order in which they appear, as they progressively become more challenging.

Notice with these phoneme blending materials:

- All words on a page are made with the same small subset of letter sounds
- More common letter sounds are used (especially on the earlier pages)
- More than one vowel sound is used to promote sound discrimination
- All words are 2-3 phonemes long
